

GAURAV VISHWAKARMA

Java Full Stack Developer · Spring Boot · React.js · AI/ML Enthusiast

+91 9889384863 | vishwakarmagaurav013@gmail.com | github.com/gauravsd-git | linkedin.com/in/gaurava-sd

PROFILE SUMMARY

Java Full Stack Developer who designed, built, and deployed **Vendora** — a live, production-grade multi-tenant SaaS POS application — using Spring Boot, React.js, PostgreSQL, and JWT. Skilled in REST API design, unit testing (JUnit), and API validation (Postman, Swagger). MCA graduate (2026, First Division with Honours, CGPA 8.23) with academic exposure to Artificial Intelligence, Machine Learning, and Soft Computing, and a certification in AI. Strong foundation in OOP, DBMS, DSA, Software Engineering, and Agile practices. Seeking an entry-level Software Engineer / Java Full Stack Developer role.

TECHNICAL SKILLS

Backend: Java, Spring Boot, Spring Security, JWT, REST APIs, JPA, Hibernate, MVC Architecture

Frontend: React.js, Vite, Tailwind CSS, HTML5, CSS3, JavaScript

Database: PostgreSQL, MySQL, H2 — query optimization, schema design, JPA integration

Testing & QA: JUnit (unit testing), Postman (API testing), Swagger UI (API docs & validation)

AI / ML: Python basics, Scikit-learn concepts, Neural Networks, Soft Computing — academic + certified

Tools: Git, GitHub, Maven, Gradle, Figma, IntelliJ IDEA, VS Code, pgAdmin, Android Studio

PROJECTS

Vendora — Multi-Tenant SaaS POS System

Jan 2026 - Mar 2026

Java · Spring Boot · React.js · Tailwind CSS · PostgreSQL · JWT · JUnit · Postman

Live Demo: vendora-ui.vercel.app | GitHub: github.com/gauravsd-git/vendora

- Designed and deployed a production-ready, live SaaS POS system handling store management, inventory, orders, and billing for multi-tenant use.
- Built JWT-based authentication with role-based access control (Admin, Store Admin, Employee) using Spring Security.
- Developed and validated 20+ REST APIs for auth, products, categories, orders, and payments; wrote JUnit tests covering the service layer.
- Designed a responsive React.js dashboard with Vite and Tailwind CSS, optimized for retail use across screen sizes.
- Integrated PostgreSQL with Spring Boot for scalable data processing, reporting, and analytics.

Google Doc — Mini System Design Project

Jul 2026

Java · System Design · SOLID Principles · UML

GitHub: github.com/gauravsd-git/Google-Doc---system-design-project

- Built a simplified clone of Google Docs in Java as an exercise in applying object-oriented design principles and UML-driven architecture to a real-world editing system.
- Modeled a document editor capable of composing text, line breaks, tab spaces, and images into a single renderable and persistable document.
- Designed the system around SOLID principles for extensibility and maintainability.

Blogging Application

Sep 2025 - Oct 2025

Spring Boot · Spring Security · JWT · PostgreSQL · Swagger UI · MVC

GitHub: github.com/gauravsd-git/Blogging-App-

- Built a full-featured blogging platform with user authentication, post creation, likes, and comments using MVC layered architecture.
- Secured all endpoints with Spring Security + JWT; documented and validated APIs using Swagger UI.
- Applied clean repository-service-controller separation with PostgreSQL integration for a maintainable backend.

EXPERIENCE

Software Development Intern — CodeClause

Aug - Sep 2023 | Remote

- Built a Java-based Android Music Player with audio playback, playlist management, and UI customization features.
- Followed a Git branching workflow — feature branches, commits, and code review practices in a collaborative setup.
- Systematically tested and debugged functionality across the development cycle.

EDUCATION

Master of Computer Applications (MCA)

2024 - 2026

Veer Bahadur Singh Purvanchal University, Jaunpur, UP — Final CGPA: 8.23 · First Division with Honours

Key subjects: Software Engineering (B+), Artificial Intelligence (B+), DBMS (A), OOP (B+), Computer Networks (B+), Machine Learning (B+), Soft Computing (B+), DSA

Bachelor of Computer Applications (BCA)

2020 - 2023

Veer Bahadur Singh Purvanchal University, Jaunpur, UP — CGPA: 7.9

CERTIFICATIONS

- Java and OOP — Saylor University (Dec 2025)
- Java Concurrency & Multithreading — Scaler (Aug 2025)
- Spring Boot — Scaler (Oct 2025)
- Artificial Intelligence — HP LIFE (Oct 2025)
